

Drupal™ Association

Annual Report **2011**

The Drupal Association

The Drupal Association is a non-profit organization that is dedicated to helping the Drupal open-source project flourish. It's the backbone that provides the support, infrastructure and funding to grow the Drupal Community and help with online collaboration at Drupal.org.

MISSION STATEMENT

The Drupal Association fosters and supports the Drupal software project, the community and its growth by:

Maintaining and updating the hardware and software infrastructure of Drupal.org and other community sites.

Empowering the Drupal community to participate in and contribute to the project.

Protecting the GPL source code of the Drupal project and its community contributions.

Protecting the Drupal project and community through legal work and advocacy.

Organizing and promoting worldwide events, including DrupalCons.

Educating on the benefits of the Drupal software.

Kick-starting Drupal communities around the world through Drupal Community Cultivation Grants.

FROM THE PRESIDENT

AS WE ENTER DRUPAL'S 11TH YEAR, I am proud to say that this open source community is one of the strongest and fastest growing in the world. We recently surpassed 16,000 registered developers and 800,000 users on Drupal.org and nearly 1 million sites are using Drupal. Drupal 7 has surpassed Drupal 6 in terms of installations. Drupal 7 is a resounding success, and we are in a good position for Drupal 8 to be even better. We are building an unprecedented open source project.

Years ago when Drupal was starting to gain traction I received a small donation check, which was deposited into a non-profit organization created to represent the growing Drupal Community. Now many years later that idea has grown into the Drupal Association and I'm proud of what we have created.

In 2011, the Association rebuilt its governance structure, assumed more responsibilities, affirmed its 501c3 status, and held a strong North American DrupalCon in Chicago and put on the largest European DrupalCon to date in London, to name a few things.

In 2012, the Drupal Association has established some very aggressive initiatives around drupal.org, staffing, training, and spreading the word around the globe about this amazing project we call Drupal.

I thank each and every one of you for your involvement in not only the project, but also your volunteer work, and your enthusiasm for Drupal.

— Dries Buytaert

FROM THE EXECUTIVE DIRECTOR

THE DRUPAL ASSOCIATION WAS HEADS DOWN IN 2011 taking the time necessary to build a strong foundation on which the Association could springboard to its future initiatives. In addition to what Dries stated in his letter, we purchased new servers for drupal.org, expanded our scholarship and created a Community Grant program, funding a variety of activities, including: kick-starting camps around the world, trainings, a European roadshow and funding a Latin America Drupal Magazine that was published in three languages.

Looking forward, we are ready to tackle some impressive initiatives in 2012. Working in lockstep with our amazing community, our initiatives include adding developer-focused regional events, expanding our reach beyond Drupal developers and adding a third DrupalCon that will float between South America and Asia/Pacific.

In addition, we're going to work on expanding our community through a University program, coordinate quarterly global trainings, and do a better job at communicating the benefits of community participation through meetups, camps, and sprints. On top of all that, a huge initiative is to continue to make changes to our community's home base <http://drupal.org> as we ramp-up a team dedicated to making on-going improvements to this vital piece of our community.

We have a lot going on and we can't do it without your help and support. Thank you for being a part of the Drupal community and for helping to push open source further.

— Jacob Redding

In 2011 the Drupal community was supported by two organizations: Drupal VZW and DrupalCon Inc. In September 2011 DrupalCon assumed all worldwide activities and became the Drupal Association. This financial report reflects this new organization but with revenues from Q4 against a full year of expenses. Although this represents a net loss on a cash basis the Drupal Association is healthy and set to do great things in 2012, review this against our balance sheet for a full picture.

NEW TO DRUPAL? HERE'S HOW YOU CAN GET INVOLVED

Drupal.org is a wealth of information for joining forums, contributing code, and finding events, meetups and trainings in your area.

Go to <http://drupal.org/getting-involved>.

Become a member of the Drupal Association and we'll keep you up-to-date on larger events such as DrupalCons, volunteer opportunities and more.

LEARN MORE...

To learn more about the Drupal Association, the Drupal Project, and how to get involved and contribute go to <https://association.drupal.org>.

Find many Drupal success stories at the Drupal Showcase: <http://drupal.org/cases>
